COMPETITORS

Each competitor will be given a wrist band with their category numbers on so they know which one they are in when we call them. Coaches will also be given a print out of the category numbers their students are in.

All categories begin with a roll call on the ring. Anyone who is not there will then be called twice via the PA system, the second time will be announced as the final call. They will have 5 minutes to make it to the ring. If after 5 minutes the competitor has not arrived on the ring, and the category has begun, they will not be able to participate in that event. They will also not be put into an alternative category and refunds will not be given.

If the competitor misses the target or falls to the floor after hitting the ball they are out. Jumping kicks are not allowed. The target will increase in height each round and the winner will be the last person left in who successfully kicks the target.

Long Kick - Competitors will run and jump over an obstacle to hit the target at the end of the runway. Competitors must hit the target with their foot whilst in the air before any part of their body touches the mats on the floor. Anyone who misses the target will be out.
